Clients Comments (see main Case Study to view full Testimonial)

The control of the construction area was ideal for me, the reception of goods and instruction of the contractors couldn't have gone any better.

The site documentation, Plans - Method Statements - Risk Assessments - Permits To Work - Near Misses - Checking Certifications and Licences all done to the satisfaction of our Healthy & Safety team. Well Done. It has been a pleasure to have your company undertake the rebuild project, I can speak for Neil, Mark, John W and myself whom have all been delighted with your attitude to Health & Safety, attention to detail, planning, organising, housekeeping and real commitment to completing the job on time and as advised on schedule. **All the remains is a Big Thanks to you and your staff for completing Biffa's works to the highest standard and bringing the job in on time.**

Mr. J Paisley – Pre Treatment Manager
